

# Orocalvita

Orocalvita is an Orosoluble Calcium along with vitamin D3 in an highly palatable granule form. It's the most novel form of calcium supplement without any use of water and directly soluble.

## **Composition**

Calcium citrate- 1000mg.Vitamin D3 – 500IU

## **USP:**

- Calcium citrate formula that is better for absorption by the body as compared to calcium carbonate and calcium phosphate.
- It contains the highest quality calcium with up to 33% absorption by the body, which is best in class and orosoluble in nature
- It has 2.5 Times more bioavailability than other supplements, which means it allows your body to absorb 2.5 times more calcium from each sachet.
- It can be taken at any time of the day without having to take a meal because it contains citric acid, which helps in better absorption and digestion.

**Indications:** For adults, Safe for Diabetics, Pregnant Women, Heart Patients and Elderly.

**Packaging :** Sachets 2.5g

**Category:** Nutraceutical
